

ABDUL RAUF

FULL STACK WEB DEVELOPER

Gujranwala, Punjab 52290, Pakistan

itxrauf99@gmail.com | +92 329 643 7158 | [LinkedIn](#)

PROFILE

Full-stack web developer and BS Computer Science student at UET Lahore with hands-on experience designing and shipping production-ready web applications. Built Article Hub, a full-stack publishing platform featuring a responsive React UI, secure Node.js/Express REST APIs with JWT authentication, and a normalized PostgreSQL database. Proficient in JavaScript, React, Node.js/Express, PostgreSQL, MongoDB, REST APIs, Git/GitHub, and CI/CD. Actively seeking internship or entry-level roles.

ACCOMPLISHMENTS

- Designed and delivered a production-ready full-stack publishing platform with clean UX and scalable architecture.
- Implemented secure authentication and role-based authorization using JWT.
- Designed normalized PostgreSQL schemas with optimized queries and pagination.
- Built modular React components and REST APIs with centralized validation and error handling.
- Deployed application with production configuration and secure secrets management.

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer, Self-employed — Gujranwala, Punjab **Dec 2025 — Jan 2026**

- Designed and shipped Article Hub (Live: [articlehub.me](#)), a full-stack publishing platform.
- Built a responsive React frontend with role-based workflows.
- Developed Node.js / Express REST APIs with JWT-based authentication.
- Designed normalized PostgreSQL schemas with indexing and pagination.
- Improved reliability using rate limiting, caching, and error handling.
